care probiotic into your daily oral-hygiene routine

ProBioraPro® **ProBioraKids®**

ProBioraPro®

90 Day Bottle: \$64.95 / Bottle

ProBioraKids®

30 Day Bottle: \$19.95 / Bottle

Oral-health Benefits

- Dissolving one or more each day will overpopulate the positive bacteria and drive out the pathogenic bacteria that cause tooth decay and gum disease.
- You will see and feel a difference in as little as 30 days.

About ProBiora Health Probiotics

- Probiotics for your mouth from your mouth.
- Just like digestive probiotics, ProBiora Health's oral-care probiotics bring beneficial bacteria to your mouth that will restore the natural, healthy balance.

Did You Know?

Bad bacteria in the mouth have been associated with heart disease, Alzheimer's, rheumatoid arthritis, and cancer.

Ordering Is Easy!

Step 1: Open the camera app on your phone.

Step 2: Point it at the dedicated QR code to scan the code.

Step 3: Finally, tap the pop-up notification at the top of your screen to visit the dedicated site.

Best Practices

You can use ProBiora Health oral-care probiotics at any time, but using them at **bedtime is most effective!**

For daily support, dissolve or chew 1-2 per day after brushing teeth. Do not swallow whole. **For more intense support**, dissolve or chew 2-3 per day, as instructed above.

If using mouth rinse, wait 30 minutes **after** you rinse before dissolving.

Used as directed, ProBiora Health oral-care probiotics will help support oral health and are **safe and effective for all ages**. For those at risk of choking, grind up the tablet before dissolving in mouth.

ProBiora Health oral-care probiotics will not damage your teeth, dental work, orthodontic and/or sleep appliances.

About ProBiora Health

ProBiora Health is bringing the science of probiotics to oral-care by developing and marketing a complete line of proprietary probiotics that are specifically designed to enhance oral health for humans and pets. All products are developed from ProBiora3[®], a blend of three naturally occurring strains of beneficial bacteria, which was discovered by Dr. Jeffrey Hillman.
